

Bio-based and Green Wide-spectrum Antimicrobial Spray

生物基绿色广谱抗菌抗病毒喷雾

Ecolar Technology Limited's antimicrobial spray is formulated with MPHA, a bio-based, safe and eco-friendly antibacterial and antiviral material. It can inactivate over 99.99% of coronaviruses and superbugs. Fully biodegradable, non-toxic and hypoallergenic, it contains no heavy-metal contaminants. Environment-friendly, it delivers effective protection for human health.

Long-Lasting Broad-Spectrum Antimicrobial & Antiviral Protection

Delivers durable protection and can inactivate over 99.99% of coronaviruses and superbugs.

Gentle Care — Free of Added Heavy Metals

Mild and non-irritating to skin. It quickly sanitises hands and efficiently eliminates odors from fabrics, leaving hands clean and fabrics fresh.

Lightweight & Portable

Compact 100mL format for easy carrying. Suitable for hands and a wide range of textile surfaces to support health protection anytime, anywhere.

Bio-based, Eco-Friendly & Sustainable

Fully biodegradable and environmentally safe. Green and sustainable principles are implemented across formulation and packaging.

Broad-Spectrum Antimicrobial • Reliable Protection

Effectively disinfects common bacteria and viruses in daily life, creating a fresh and healthy environment for you and your family.

Staphylococcus aureus

E. coli

Candida albicans

Influenza virus

COVID-19

Fragrance-Free

Pure & reassuring, no added fragrances. Suitable for sensitive groups for gentle, pure care.

Hawaiian

Light fragrance with fresh ocean notes, delivering a refreshing natural vibe.

Pheromone

Strong fragrance with elegant floral notes. Highly effective at neutralizing odors for long-lasting scent.
